

Eternal Flower

Eternal means "forever".

By expressing the energy of flowers as beauty, we produce a comfortable space and are elegant despite being a concept, we will deliver dignified beauty and kindness forever to everyone. We hope to convey the beautiful heart that I treasure in flowers through flowers in everyone's life. Have the feeling of wanting to deliver happiness without forgetting the heart of appreciation.

Eternal Flower prepares each flower petal and leaf carefully with hands and gives a thought to flowers, making it natural

With cherry blossoms, we cherish that you can feel as 'flower' without the blooming of fresh flowers and artificial flowers.

Moreover, we value the balance with the interior so that you can have a nice sense of improvement, add a sense to everyone's daily life, we are proposing beautiful and rich space.

Also, we will offer Eternal Flower as the axis, with Eternal brand of Premium · Hospitality · Plants · Moss 5 sub-brands.

About the Eternal Flower

- Eternal flower is an artificial flower that reproduces fresh flowers in a real way and is also highly artistic and durable, which can not be displayed with fresh flowers. It is enough to make it more natural flower than a natural flower.
- Green is also excellent, it has become a processing that has attached leaf material to raw trees.
- Besides full bloom, after having been scattered and scattered, buds, sprouts and so on seem to be able to look naturally unlimited.
- Flowers can be freely flowered in branches and flowers can not be expressed in fresh flowers, expressive power that can produce beautiful designs is possible.

Merits

- Since soil is not contained, insects do not lose, so there is no smell, so there is no physical and temporal restrictions such as ease of carrying.
- It corresponds to any space and environment, there is no impossibility.
- It can be used without problems for hygiene such as hospitals and nursing care facilities.
→ You can also purify air with a photocatalyst.
- It is possible to correspond to hot/cold (summer withers, winter also insufficient illumination etc.)
- Can be used with raw flowers and raw trees
- It can be used as art.
- It is easy to clean.
